International Forum on Vocational Education CACIE 2015

Going Green: Schools, Businesses and Communities

October 23-24, 2015 • China National Convention Center • Beijing

As an integral part of CACIE 2015, under the overarching theme of “*Going Green: Schools, Businesses and Communities*”, the International Forum on Vocational Education focuses on **SUSTAINABILITY**. The development of curriculum, a training program, an institute, and the education and training system as a whole in a sustainable way is important to economic growth and social stability, nationally and globally. The Forum will convene stakeholders from home and abroad to share visions, views and best practice on this issue.

✚ **Theme:** *Sustainability: Technical and Vocational Education and Training for the Future*

✚ **Topics may include the following:**

- TVET System Reform
- Training for Emerging Occupations
- Community Service
- Applied Research
- International Collaboration
- Strategic Planning and Implementation
- Green Skills and Green Colleges
- Quality Assurance
- Career Development
